# STAINLESS STEEL PULLEYS GRADES & SPECIFICATIONS

## PREMIUM GRADE

- ▶ Used in applications where food contact and sanitary conditions are required.
- ▶ Diameters from 2" OD to 3.5" OD up to 26" long, 4" OD to 4.5" OD up to 32" long, and 5" OD to 8" OD up to 40" long.
- ▶ Flat or crowned face.
- ▶ All surfaces to be machined to a 32 Ra. finish. Surfaces will be "seamless".
- ▶ Welds will not be visible.
- ▶ Available in a plain bore hub style only and **MUST** include axle.
- ▶ Flush end-plates.
- ▶ Approval drawing included on Premium Grade pulleys at no extra charge.
- ▶ All components are 304 stainless steel.

## DELUXE GRADE

- ▶ Used in applications where direct food contact **DOES NOT** occur.
- ▶ Diameters from 2" OD to 12" OD and lengths up to 56" long.
- ▶ Flat or crowned face.
- ▶ Surface is "glass bead" finished to 64-125 Ra.
- ▶ Welds are ground then "glass bead" finished.
- ▶ Flush 3/8" thick end-plates.
- ▶ Hub types available included plain bore, keyway & set-screw, ball bearings (mild steel or stainless) or any hub/bushing combination.
- ▶ All components are 304 stainless steel with the exception of the ball bearings (unless requested).

## STANDARD GRADE

- ▶ Used for corrosive or wet industrial applications and is **NOT** a "food grade" pulley.
- ▶ Diameters from 2" OD to 12" OD and lengths up to 56" long.
- ▶ Flat or crowned face.
- ▶ Surface is "glass bead" finished to 64-125 Ra.
- ▶ Hub types available include plain bore, keyway & set-screw, ball bearings (carbon steel or stainless) or any tapered hub/bushing combination.
- ▶ All components are 304 stainless steel with the exception of the ball bearings (unless requested).

## LAGGING OPTIONS

- ▶ "Lynx-Cote" EPDM White, 60 Durometer.
- ▶ "Lynx-Cote" Hypalon Black, 60 Durometer.
- ▶ "Lynx-Cote" SBR Black, 60 Durometer.
- ▶ Other lagging options available upon request.
