Bulk Handling Tubular Gallery

Lynx Products Corp. manufactures and distributes a variety of high quality bulk handling components and now, we are pleased to add a rugged line of tubular galleries for enclosed material handling. When you need to keep the environment away from your product or your product away from the environment, a tubular gallery is the way to go! We can even install troughing and return idlers inside and complete it with a walkway and many other options. Call a Lynx Products Corp. sales engineer today to discuss your bulk handling tubular gallery application.

Take a look at some of our specifications!

- ▶ "Sub-arc" welded construction
- ▶ Rim thicknesses from 1/4" to 1/2"
- ▶ Diameters from 8' to 12'
- ▶ Clear spans over 100'
- ▶ Single welded pieces to 60' long

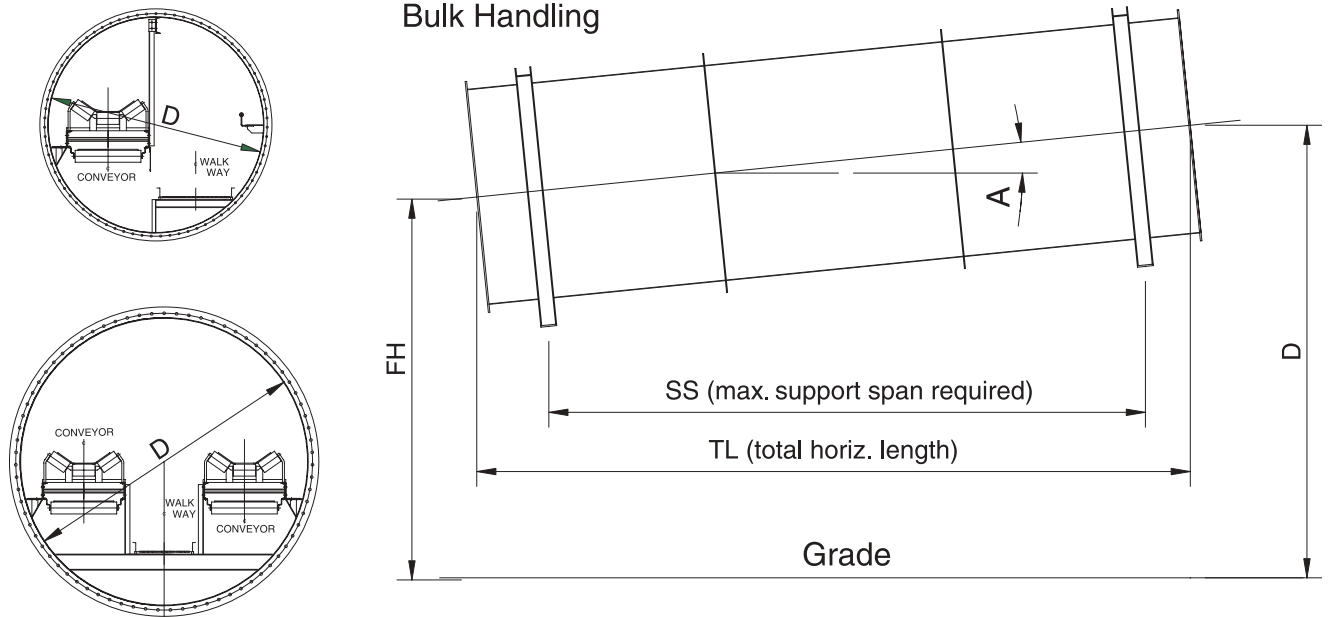

Options available include:

- ▶ Custom paint and colors
- ▶ Custom "Gripstrut" walkways
- ▶ Troughing & return idlers installed
- ▶ Light fixtures installed
- ▶ Ductwork
- ▶ Utility piping/sprinklers
- ▶ Bulkheads

Lynx Products Corp. can supply you with many other available options. Call a sales engineer for more information.
